1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Wachi et al.

Regarding new claim 5, Wachi et al. discloses the claimed invention including a strummer system (7) operatively associated with the strings (Fig. 3a) and the speaker (4) to detect movement of the strings to cause synthetically produced note (col. 7, line 56, a tone generating is synthetically produced note).

Regarding new claim 6, Wachi et al. discloses the claimed invention including a front and a back including an arcuate peripheral edge having non-linear radii vectors (Fig. 3 shows a front and a back having similar shape as applicant's front 10 and 63, therefore, they are interpreted having an arcuate peripheral edge having non-linear radii vectors).

3. Claims 3 and 4 are allowed.

4. The claims are allowable over the prior art for at least the reason that the prior art fails to reasonably teach or suggest in claim 3 that a speaker system mounted in the hollow acoustic body and including at least one speaker positioned at least partially

beneath the sound hole and at least one speaker positioned at least partially offset from the sound hole, and in claim 4 that at least one port inside the hollow acoustic body extending outwardly from the speaker toward at least one of the bout as set forth in the claimed combination.

5. Applicant's arguments with respect to claims 5 and 6 have been considered but are moot in view of the new ground(s) of rejection.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
